JUL 16 2018

Dr. John Barrett  
President and Chief Executive Officer  
Canadian Nuclear Association  
130 Albert Street, Suite 1610  
Ottawa, Ontario K1P 5G4

Dear Dr. Barrett:

John,

I am writing to thank you for helping to advance Canadian clean technology interests with our international partners at the 3<sup>rd</sup> Mission Innovation in Malmö on May 23 and 9<sup>th</sup> Clean Energy Ministerial in Copenhagen on May 24 (CEM/MI 2018).

I greatly appreciated your presence at our launch of the Nuclear Innovation Clean Energy Future initiative and the Equal by 30 Campaign, as well as your attendance at other events, including the reception on Hybrid Energy Systems hosted by Clear Path, Third Way, and Energy for Humanity. The Canadian Nuclear Association will be an important partner in delivering on the initiatives and campaigns that were launched this year.

As we prepare to host the Clean Energy Ministerial and Mission Innovation meetings in Vancouver in 2019, Canada will continue to engage our international and domestic partners in building a clean energy future. We are planning a dynamic, interactive format with a vision based on themes that include diversity and partnerships, with a particular focus on women in clean energy and youth; technology and innovation; and investment.

Thank you again for your contributions at CEM/MI 2018 and your work to advance Canada's nuclear industry as an important part of Canada's clean energy mix. I look forward to our continued collaboration.

Yours sincerely,

Kim Rudd, M.P.

As always, a distinct  
pleasure to travel and  
work with you.  
Thanks for the support!  
K.
