MEMBERSHIP BROCHURE

Get Informed, Get Engaged, and Get Noticed.

"If you want to be part of the most exhilarating energy industry globally right now, and you are part of the Canadian ecosystem, then you have to be a member of CNA. This is really the space where the industry comes together, unifies on a message, unifies our goals."

-Pat Dalzell, VP Corporate Affairs and Market Development, Bruce Power

"Any university or any research facility that is trying to expand into the nuclear space, I think, becoming a member of the CNA would be integral to part of their success. The network that is created here is such a foundational step in building your projects, building collaboration, and gaining more knowledge."

-Nikki Walton, Manager Nuclear Strategic Initiatives, McMaster University

"You have the ability to shape the future, influence policy, connect with leading industry experts, develop your talent, and gain insights into the strategic initiatives within the industry."

-Jacqueline Cherevaty, VP Strategic Services, BWXT Canada

Message from the President

It is a momentous time of growth and innovation in the Canadian nuclear industry. By joining our network of **190+ Voting and Affiliate CNA Members**, you will become part of an esteemed group of organizations that are powering our industry forward.

Since 1960, the Canadian Nuclear Association (CNA) has provided a **unified voice for our Members** to the public, government, regulators, and international stakeholders. We work closely with our Members to build strategic partnerships nationally and internationally, advocate on key policies and regulations, conduct research on challenges and opportunities in the sector, and increase public awareness of the value of nuclear technology.

We encourage organizations of all types and sizes to join the CNA Membership. Whether you're in the private or public sector, an established company with a large nuclear portfolio or a new entrant to the industry - CNA Membership can help your organization **get informed, get engaged, and get noticed**. Read on to learn more about the CNA and how our Membership Benefits can add value to your work.

We hope to welcome you to the CNA Membership soon.

George Christidis
President & CEO

About the CNA

The CNA has been the national voice of the Canadian nuclear industry since 1960. Working with our members and all communities of interest, the CNA promotes the industry nationally and internationally, works with governments on policies affecting the sector, and endeavours to increase awareness and understanding of the value nuclear technology brings to the environment, economy, and daily lives of Canadians.

Our Mission:

To demonstrate Canada's nuclear expertise, to promote domestic and international acceptance of Canadian nuclear technologies, and to create a positive public, political, and regulatory environment for advancing the nuclear industry in Canada and in global markets.

Our Vision:

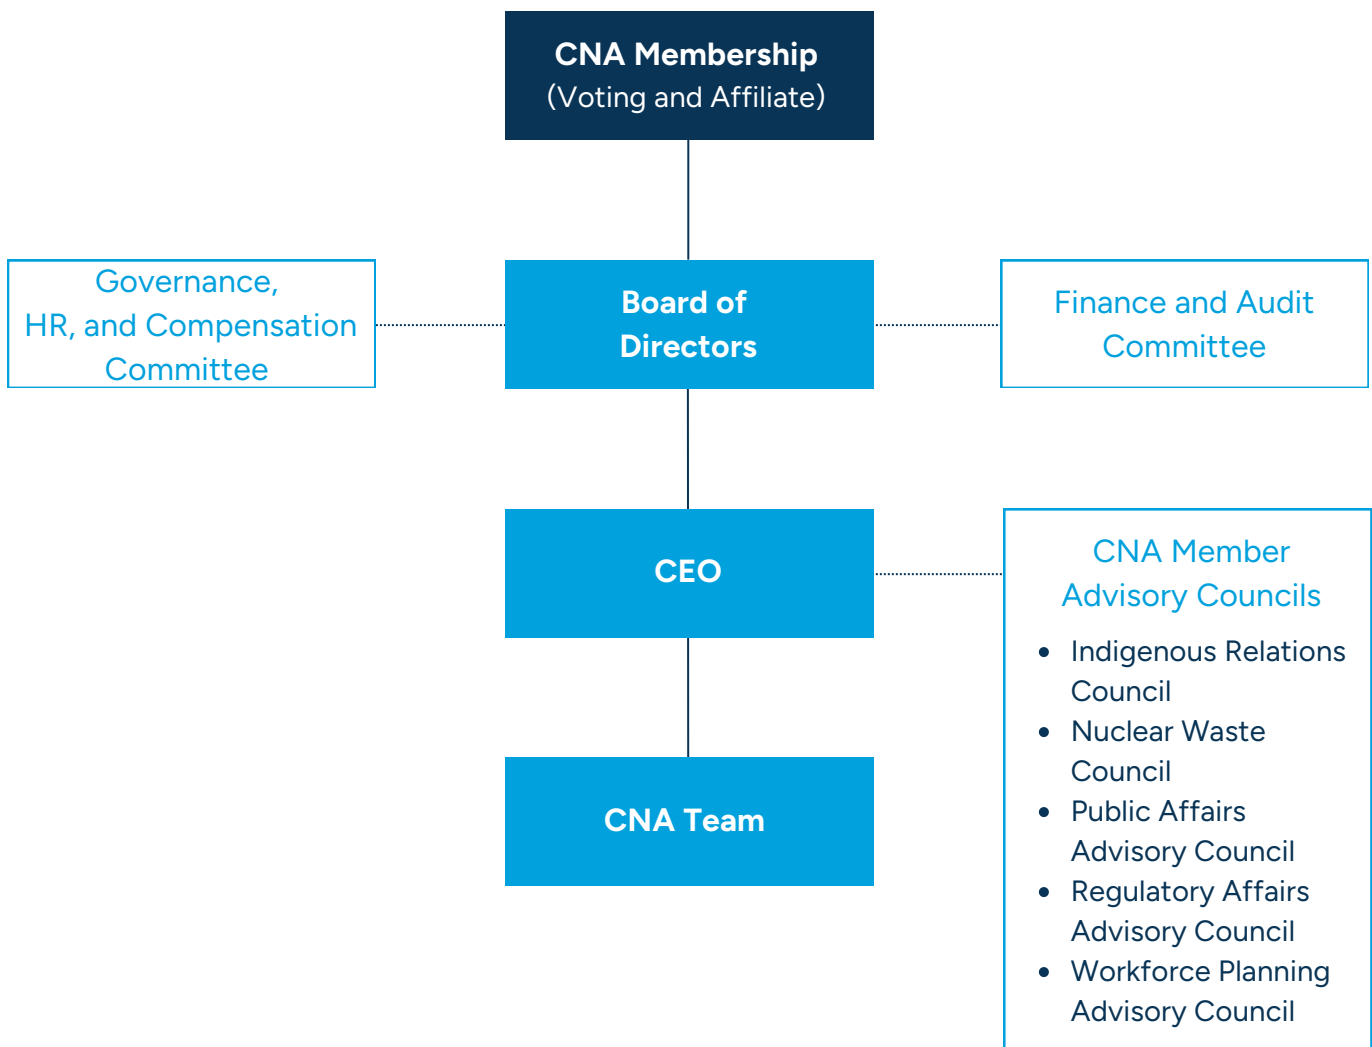

To have a strong, vibrant, and expanding nuclear-based industry, benefitting our members, stakeholders, and all Canadians.

Organizational Structure

The CNA is a non-profit organization governed by a Board of Directors that is composed of representatives from Voting CNA Members. Board Committees are established to facilitate the work of the Board and are accountable to the Board.

Additionally, the CNA has five Member Advisory Councils that are made up of Voting and Affiliate CNA Members. These councils advise the Association on priority areas for the Canadian nuclear industry.

Pillars of Our Work

Advocacy & Strategic Partnerships

The CNA represents the industry's position on policy, legislation, and regulatory issues to all levels of government and stakeholders. We also develop global partnerships and execute strategies for success in key foreign markets.

Policy, Regulatory & Indigenous Affairs

The CNA monitors and builds relationships with key federal regulators and submits industry comments and recommendations on regulatory documents. We develop policy advice on enabling conditions for the nuclear sector. We strive to create opportunities for Indigenous inclusion in the sector.

Communications & Public Affairs

The CNA works to increase public awareness and support for nuclear through communications campaigns. We track media coverage to better understand public perception of nuclear and coordinate industry messaging in response.

Research & Strategic Initiatives

In collaboration with CNA Member Advisory Councils and key stakeholders, we proactively research and create strategies for addressing opportunities and challenges in the evolving nuclear landscape.

Conferences & Events

The CNA organizes Canada's largest annual nuclear conference and tradeshow in Ottawa, as well as a conference in Western Canada. We also lead industry events focused on specific topics and regional priorities.

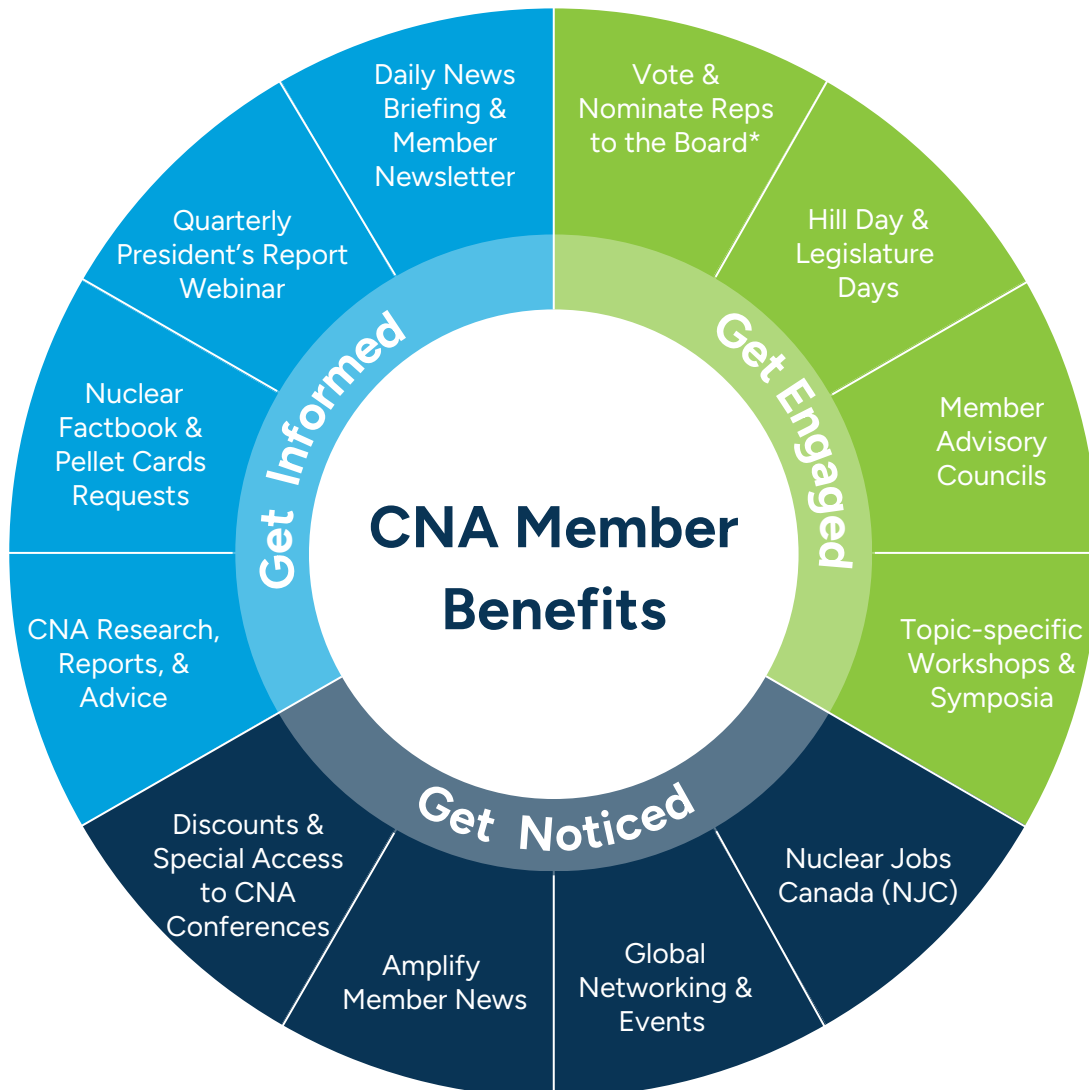

Membership Services & Development

We provide a wide array of membership benefits to all organizations in the CNA Membership, regardless of size.

Why Join the CNA Membership?

By joining the CNA, you become part of a network of over 190 Members that are driving the future of the nuclear industry in Canada. Our members include owners and operators of nuclear power plants, reactor designers, advanced technology companies, uranium suppliers, construction and engineering firms, consulting companies, manufacturers, producers of radiopharmaceuticals and medical isotopes, universities and research laboratories, labour unions, and so much more. Visit our [Membership Page](#) to view a full list of CNA Members.

CNA Members gain value from an array of Member Benefits. Some of these are collective long-term benefits, such as the outcomes of government relations and regulatory affairs work. Others are direct, exclusive benefits that empower our Members to **Get Informed, Get Engaged, and Get Noticed**.

*This applies to Voting Members only.

Member Benefits - Get Informed

CNA Members get the tools to stay ahead of the curve on all things nuclear in Canada and around the world. From receiving daily news headlines and announcements from fellow Members, to getting the bigger picture on industry trends from the CNA team, your organization will have more information to drive your work in the nuclear space.

Email Services

Daily News Briefing Service

Curated news briefing delivered every workday morning to 500+ Member contacts. Includes Canadian and international nuclear industry news as well as Member announcements and press releases.

Member Update Newsletter

Official Member Newsletter of the CNA delivered monthly to 1,400+ CNA Member Contacts. Connects Members with their member benefits, CNA news, reports, industry engagement opportunities, and more.

Quarterly Webinars & Advice

President's Report Webinar

Get the scoop on the outlook for nuclear in Canada and how the CNA is responding to the latest opportunities and challenges. Gain deeper insights on our government relations and advocacy efforts, and ask the CNA President your questions directly.

CNA Team Advice and Support

Connect directly with the CNA team for advice on government relations, regulatory affairs, international affairs, communications, and more.

Member Benefits - Get Informed

The CNA regularly releases topic-specific reports for our Members and key partners. These reports are valuable for both Members with a smaller nuclear portfolio who don't have capacity to conduct their own research, and those with a large nuclear portfolio who are seeking to validate their own results.

We also take requests for free printed copies of our Canadian Nuclear Factbook and Pellet Cards. These assets enable you to educate peers at your office, events, and more on all things nuclear.

Reports & Publications

Public Opinion Polling

Each year, the CNA contracts public opinion polling. The polling provides key insights on views and knowledge of nuclear across Canada, as well as which factors impact support for nuclear. The report is shared with CNA Members, and upon request, Members can also be included in the survey design process.

Pellet Card

Members can request free copies of the CNA Pellet Card. It's an eye-catching tool for educating folks on the power and scale of nuclear energy in a tangible way - using a (simulated plastic) uranium pellet.

Canadian Nuclear Factbook

The [Canadian Nuclear Factbook](#) is packed with over 100 pages of written information, infographics, and photos on nuclear technology and the industry in Canada and around the world. The Factbook is written to be accessible to the average reader while still addressing technical topics. Members can also request free copies of the Factbook, while supplies last.

Member Benefits - Get Engaged

The CNA is proud to provide forums for collaboration and knowledge sharing between Members, industry leaders, government, Indigenous communities, and other key nuclear stakeholders. CNA Membership unlocks access to these forums for engagement that can add value to both your work and the collective industry.

Engage With The CNA Board

Meetings of Members & Board Nominations

Voting Members of the CNA have the opportunity to nominate representatives from their organization for election to available seats on the CNA Board of Directors, as well as entitlement to vote at all meetings of Members.

Affiliate Members can attend meetings of Members but are not entitled to vote at those meetings. Affiliate Members cannot nominate representatives to the Board.

Engage With The Industry

CNA Workshops & Symposia

Register, typically for free or at a special member rate, for topic-specific events hosted by the CNA. These events provide Members with an opportunity to network with other Members and industry stakeholders, as well as showcase their work. Examples of recent events include Workforce Planning Forums in ON, SK, & NB.

Engage With The Government

Hill Day & Legislature Days

By invitation, Members can participate in an annual Hill Day and (organized as appropriate) provincial Legislature Days. Agendas typically include meetings with public office holders relevant to Members' work/regions and an evening reception. Members are provided with briefing materials to aid in the discussion.

Member Benefits - Get Engaged

The work of the CNA is driven by regular and direct engagement with our Members and partners. Joining a Member Advisory Council is a valuable opportunity to advise on the work of the CNA in priority areas, share knowledge with fellow Members, and cocreate solutions to challenges in the nuclear industry.

Meeting cadences and eligibility to join as a Core Member or Observer vary depending on the Council. Request the Terms of Reference for a council to learn more.

Join Member Advisory Councils

Indigenous Relations Council (IRC)

The IRC advises on matters related to the relationship between Indigenous peoples, the nuclear sector, and their various industry activities. The purpose is to help the CNA, and the nuclear sector overall, develop and build relationships with Indigenous peoples across Canada and improve the Association and sector's understanding of Indigenous perspectives.

Nuclear Waste Council

The Nuclear Waste Council's initial mandate is the coordination and collaboration of the nuclear industry's public affairs and communications approach to waste. The Council's purpose is to facilitate discussion and dialogue amongst industry Senior Executives and to gather outputs and deliverables from other waste working groups.

Public Affairs Advisory Council (PAAC)

The PAAC works to advise the CNA on communications, messaging, policy, government relations, and related strategies to be pursued by the Association. This includes monitoring and identifying emerging issues of importance to the industry and advising on the effectiveness of strategies developed to address those issues.

Regulatory Affairs Advisory Council (RAAC)

The RAAC advises on regulatory affairs issues that are of concern to CNA members and to the nuclear industry in general. The RAAC works to identify and prioritize regulatory affairs issues that are of concern to the industry, and develop industry positions and provide guidance on their solution.

Workforce Planning Advisory Council (WPAC)

The WPAC serves as a forum to discuss and provide advice on the knowledge and strategy of preparing the workforce for the future of the Canadian nuclear industry.

Member Benefits - Get Noticed

The CNA works to amplify the collective voice of the industry - we also work to promote the individual activities and achievements of our Members! We offer a variety of pathways for your organization to get noticed by industry leaders in Canada, key international partners, and the workforce.

Amplify Your Organization's News

Showcase Your CNA Membership

We list the logo, bio, and website link for all of our Members on our Membership Webpage. Plus, Members can use the CNA's logo on their website and materials to showcase their membership.

Share Your News Through CNA Channels

Have an exciting announcement or event? We amplify our Members' news through our Daily News Briefing, Member Update Newsletter, and online Events Calendar.

Build Your Global Network

International Events & Opportunities

As a CNA Member, your network extends beyond just the Membership. Members frequently participate in both national and international events and strategic efforts alongside the CNA, such as trade missions and the World Nuclear Exhibition.

Post on Nuclear Jobs Canada

Nuclear Jobs Canada (NJC)

CNA Members can directly manage postings for any nuclear-related jobs at their organization on nuclearjobscanada.ca, a member-only job board for the nuclear industry, by the nuclear industry. Nearly 25,000 job applications were submitted in NJC's first year.

Member Benefits - Get Noticed

CNA Conferences are the place to bump shoulders with industry executives, government officials, Indigenous leaders, talented students, and many more folks! CNA Members receive significant, **member-only discounts on conference registration, exhibitor booths, and select sponsorship levels**, as well as in-kind support for side events. Request a sponsorship package to learn more.

CNA Annual Conference & Trade Show

The CNA Annual Conference and Trade Show is Canada's largest, most significant nuclear event.

Location: Ottawa, Ontario

Timing: Spring

CNA2026 Engagement: 2,000+ attendees; 130+ speakers; 85+ exhibitors.

CNA West Conference & Trade Show

The CNA West Conference is focused on shaping the nuclear success story in Western Canada.

Location: Western Canada

Timing: Fall

CNA West 2025 Engagement: 500+ attendees; 50 speakers; 24 exhibitors.

Membership Structure

The CNA's membership structure is designed to include a wide range of types of organizations and sizes of nuclear portfolios. We offer two types of Membership: Voting and Affiliate. Consult the lists below to determine whether your organization would be classified as a Voting Member or Affiliate Member.

VOTING MEMBERS

Voting Members belong to one of six Industry Categories:

- 1 Energy utilities, major nuclear companies, mining and fuel cycle companies, reactor vendors, and multi-faceted and international suppliers.
- 2 Companies involved or specializing in engineering, procurement and construction contracting associated with the Canadian nuclear industry.
- 3 Organizations involved in medical applications, research and development, and testing related to nuclear applications and decommissioning.
- 4 Organizations involved in computer software, manufacturing and uranium development and exploration.
- 5 Organizations involved in industry consulting, insurance, training and staffing, small service companies, and professional service providers.
- 6 Labour organizations with members working in the nuclear industry.

Membership Fees: Voting Members pay membership dues. Dues Tiers are matched to an organization's Industry Category and Annual Nuclear Revenue earned in Canada.

Voting & Board Eligibility: Voting Members can nominate company representatives for election to available seats on the CNA Board of Directors. The designated official at a Voting Member organization can vote at Meetings of Members, including the AGM.

AFFILIATE MEMBERS

Affiliate Members must be one of the following: Other industry associations, universities, research institutions, foreign nuclear organizations, or municipal and community groups.

Membership Fees: Affiliate Members do not pay annual membership dues; instead, the CNA collaborates with the Affiliate Member to build a reciprocal relationship with mutual benefits.

Voting & Board Eligibility: Affiliate Members cannot nominate company representatives for election to available seats on the CNA Board of Directors. They do not have eligibility to vote at meetings of members (except as provided under the Canada Not-for-profit Corporations Act).

Ready to Join the CNA?

- 1 Email membership@cna.ca to request our Membership Package. Tell us about your organization and why you're interested in joining the CNA!
- 2 Review the Membership Package:
 - Membership Brochure
 - Dues Structure (consult to identify the Category & Tier that best fits your organization)
 - Membership Policy
 - Application Form
- 3 If you have any further questions, the CNA Membership Team will book a meeting with your organization to answer them and review membership benefits.
- 4 Once your organization is ready to join, submit the Application Form.
- 5 Voting Members will be sent a prorated invoice for membership dues and attend an introductory meeting with a CNA Executive.

Affiliate Members will collaborate with the CNA to build a reciprocal relationship with mutual benefits.

Your organization's application must be approved by the CNA Governance, HR, and Compensation Board Committee (GHRCC) to be officially accepted into the CNA Membership.
